It is recommended that session submitters have initial contact with the proposed speakers before they submit a session to determine their availability to attend the conference, should the session be accepted. If a proposed speaker declines, it is the responsibility of the session submitter to provide the name and contact information of an alternative speaker. Please consider replacement speakers in case the ones initially proposed decline the invitation. For speakers representing a UN programme, submitters are required to select the organisation in the list available in the drop down menu;

If the session is accepted, the submitter is expected to facilitate communication between the session speakers to ensure a coherent session and avoid duplication or contradiction amongst the presentations.

Important note: to accommodate the number of session slots available, chairs of different accepted sessions may be requested to merge their session in order to be able to present them.
